Re: B.P. Minerals
Barney's Canyon
Storage Area A approval

Dear Mr. Ramsey:

We have reviewed the plan showing the details for construction of Storage Area A. The plan is acceptable and hereby approved.

The storage area is trapezoidal in shape and approximately 1700 square feet in size. The storage area consists of a 6-inch thick reinforced concrete slab surrounded on 3 sides with a 6-inch high concrete curb. Any spillage of cyanide materials would drain to a spillway which ultimately discharges to the pregnant liquor pond.

Please call if there are any questions.

Sincerely,

Utah Water Pollution Control Committee

Don A. Ostler, P.E.
Executive Secretary
